

PRESS RELEASE

3rd June 2024

METYX joins TECH-FAB Europe

TECH-FAB Europe, the association of European technical textiles producers, is pleased to welcome METYX as a new member.

METYX expands TECH-FAB Europe's existing membership consisting of manufacturers of engineered textiles that enable high-performance solutions for diverse markets, including mobility, construction, energy, and industry.

METYX is a global solution partner for high-performance technical textiles, including multiaxial, carbon fibre and woven reinforcements. It serves the marine, automotive, transportation, wind energy, construction, infrastructure, and sports and leisure industries. Products and service are provided from its six factories in Turkey, Hungary, and the USA.

"At METYX, our mission is to offer innovative solutions to the global composites industry and contribute to a sustainable future," states Uğur Üstünel, CEO. "By joining TECH-FAB Europe we strengthen our voice in the European technical textiles industry and open up new opportunities to collaborate on initiatives supporting innovation and sustainability."

"We are delighted to welcome METYX to TECH-FAB Europe," says Agusti Porta, President. "We look forward to exchanging knowledge and working together on our common goal of advancing technical textiles solutions that contribute to the objectives of the European Green Deal."

TECH-FAB Europe supports the sustainable development and economic growth of the European glass-based technical textiles industry, increases awareness of technical textiles applications and their contribution to the EU Green Deal objectives, and represents the industry in matters relating to fair trade, regulation and standardisation.

About TECH-FAB Europe

TECH-FAB Europe is the association of European technical textile producers. Our products are high-performing engineered textiles that bring lightweight solutions, strength, and many other benefits to our everyday lives, with sustainability at heart, complying to the European

Green Deal to create a climate-neutral economy by 2050. We represent a diversity of markets and companies of different sizes, with a solid network based on mutual respect.
